

# THE MIDWEST IMPLANT INSTITUTE

601: Bone-grafting and Sinus Elevation

May 20-22      Sept 30- Oct 2      2.5 DAY COURSE – 20 CE credits

“Hands on” bone grafting course for dental implants  
Keeping it simple but predictable

## MII Faculty

Dr. Duke Heller - Dr. Jim Rutkowski - Dr. Rob Heller - Vickie McCune

- Availability for participants to perform bone-grafting procedures on their patients -

### Lecture Topics:

- Bone grafting materials – What to use and when to use them
- Reasoning behind bone grafting
- Step by Step of different bone grafting procedures:
  - Simple bone grafting with no threads showing on placed implant
  - Bone grafting materials with 1-3 threads showing on placed implant
  - Sinus elevation – rotary as well as piezosurgery – **LIVE SURGERY**
  - Securing block bone grafts – **LIVE SURGERY**
  - Tunnel grafting – **LIVE SURGERY**
  - Socket preservation – **LIVE SURGERY**
  - Lateral Nerve Repositioning and immediate implant placement – **LIVE SURGERY**
- Tissue management to ensure bone maturity after grafting
- Platelet Rich Plasma and uses in bone grafting procedures

### “Hands-On” by participants:

- PRP – Draw blood and spin down to get PRP concentration
- Piezosurgery technology on dried specimens and eggs

### Tuition:

\$2600 for Doctors - \$275 Assistants - \$1500 for MII Fellows and past participants

No other Bone Grafting Course in America allows you to **observe live surgery** for:

- Sinus Elevation with rotary round bur and piezosurgery technology
- Socket preservation using PRP with bone grafting material
- Block bone graft from chin or lateral ramus or cadaver bone bank
- Mandibular “tunnel technique” to acquire mandibular bone width

- bone loss -

- bone

width -

- nerve repositioning -
